- o Housing Appeals Board (1 Tenant)
- o Heritage Preservation Commission (1 inside City Limits)
- o Deer Management Committee (1- Ward 4)

## **Public Works Department**

Submitted by Sam Anderson, City Engineer/Public Works Director

Construction season has begun! The 2024 Street Renewal Project is well underway. The project for this year is 3<sup>rd</sup> St SE and includes some watermain replacement, storm sewer replacement, addition of curb and gutter, and bituminous surfacing (or as some people call it “tar”). The construction started in early May and is set to be completed in early August. They are currently working on grading behind the curb and placing black dirt to get ready for seeding. Paving operations are set to begin next week! So far it has been a great start to the construction season. Stay tuned for further construction updates!
